# ***OUR MISSION***

Bring disruptive green technology to mainstream commercial fulfillment. The company is developing an array of technologies that can change the future of energy production. Among these are the following research and development activity goals:

- Remediation of the nuclear waste as produced by all sources.
- Produce abundant, low-cost, non-polluting energy, permitting the following:
  - Cost-advantage heat & electricity production.
  - Inexpensive hydrogen production.

# VOTONX<sup>®</sup>

## What is Votonx<sup>®</sup>?

VTNX is a token designed to fund the commercialization of GREEN Technologies for MagneticMilesLLC.com.

- Radioactive/Nuclear Remediation
- Clean Energy Production
- Production of hydrogen

## How Will VTNX Become a Utility Token?

As companies throughout the world witness the benefits of Magnetic Miles LLC technology, they can realize that they are able to accept the VTNX tokens from their customers, as payment for power bills. This will both support their partnership with Magnetic Miles LLC and research and development for other energy breakthroughs.

## **REWARDS**

Magnetic Miles LLC is an established company with proven technologies that have the potential to be extremely beneficial to the world's population. This alone makes the offering of our tokens unique among most other offerings. Furthermore, the funding generated by this offering will immediately allow our research and development to expand exponentially. Our token is also targeted to be a utility token, as we commercialize our technology.

\*These funds will be used for listings, exchanges, project overhead, team building, development, marketing, and anything else necessary to ensure that our Votonx® Coin is a groundbreaking success.

- ◆ ***NO TEAM WALLETS***
- ◆ ***NO TEAM TOKENS***
- ◆ ***ALL BUSINESS***

Votonx® celebrates the foundational values of responsibility, transparency, and integrity by choosing a fair launch with nothing set aside for personal gain and no "secret" dev wallets.

# ROADMAP

What to expect as we move forward!

- Re-establish previous mile markers in radioactive remediation, energy production, and hydrogen production all carbon free and green.
- Create alliances with Power Companies to finish commercialization of machines to lease to Energy Utility Companies or other interested parties (ie. Governments housing Nuclear Waste or other radioactive mishaps around the World), or where energy production is difficult because of location.
- Work on High Heat dispersion materials for commercialization.
- Research and develop new theories regarding newly established findings surrounding our Energy Machine.

## TEAM BUILDING

While we have already established a strong core team, Votonx® will continue to grow. As we bring you new and exciting features, we will most likely onboard new devs to help out. Additionally, new admins and moderators will be added as needed to the team to ensure a happy and healthy community.

## COMMUNITY EXPANSION

Votonx® is starting off in the most correct way with a robust and enthusiastic community.

We will continue to increase our reach across multiple platforms, which we believe is crucial for our long-term success. One of the ways we plan to achieve this is by using our Dividend Wallet to reward active and engaged Votonx® members.

## **TOKEN DEPLOYMENT**

Votonx® went live at the beginning of April 2023.

## **GRASS ROOTS MARKETING**

The Marketing Wallet will continue to reward driven and passionate members with giveaways, contests, and more. Paid marketing has its place; however, nothing can compete with enthusiastic individuals who are committed to making this a successful project.

## **REPUTABLE AUDIT**

Our company is a well-established LLC, with more than 500 shareholders. Our company has an excellent record of safety compliance and accounting practices.
